PROJECTS

The Small Green Studio (Demo) (Code)
HTML5, SASS, Tailwind CSS, JSON/AJAX   London, LDN

- Improved brand identity through independently redesigning their website concept/layout and logo using modern design principles.
- Led team of 4 members: organised meetings, delegated tasks, helped team debug, leading to being chosen over competitors for the contract
- Utilised **P5.js** and **GSAP** for interactive micro animations, scrolling effects and other unique features

Forum Website with Custom CMS (Documentation) (Code)
HTML5, Bootstrap, PHP (MVC Framework), JSON/AJAX   London, LDN

- Utilizing **OOP methodology** and an MVC framework to create dynamic pages with dependent access on user roles).
- Implemented embedded **CRUD** validation, Notifications, forgotten password, email verification, live search and user information extraction functionalities
- Improved UX through third-party libraries such using **Google APIs** for dynamic infographics for admin dashboards.

EXPERIENCE

Front-End Developer   Jan. 2021 – Mar. 2021
Chingu   Remote
